Subject: Wallace Yard to-do list

Thanks, everyone, for a productive meeting in Coeur  
d'Alene last week.  
To keep things moving forward to conclusion, I have  
attached a list of  
to-do items for the CD, SOW, RAWP, and RADs, with  
assignments by each  
item based on my notes from the meeting. Counsel:  
please forward this  
list to clients and consultants (e.g., Arcadis) as  
appropriate.

In general, I will be producing the next and hopefully final revision of the CD, with a target of wrapping that up this week. That means I need major individual contributions (e.g., Para. 11 from Darrell) truly as soon as possible -- like, today or tomorrow.

At the same time, the SOW and RAWP should be undergoing revisions by DGS and/or Arcadis, for circulation later this week.

As for the RADs, if the Trustees have any specific suggestions or comments, they should be submitted this week, with the expectation that Arcadis will produce a full set of RADs for review next week.

If anyone sees any errors or omissions from these assignments, please let me know asap. Otherwise, I expect everyone will proceed accordingly.

Thanks.

Cliff Villa  
Assistant Regional Counsel  
U.S. EPA Region 10
